Information for our clients regarding the Corona Virus crisis

Esteemed Clients and Business Partners,

we are undergoing exceptional and challenging times. The Austrian government deemed it appropriate to take measures to limit the risk of the Corona Virus spreading.

To protect our employees as well as our clients' health we obviously comply with the government's directives and recommendations. We thus switched our office's operations to tele working and afforded our employees the possibility to work from home. The purpose of these measures is of course to maintain our firm's business both without undue restrictions and by limiting personal contacts to the inevitably necessary.

Our law office is currently closed to the public until further notice. We thus kindly ask you to submit all documents and information either by email or regular mail. Personal delivery will be accepted from Monday to Friday subject to prior notice by telephone. However, we kindly ask for your understanding that members of our team can only on limited exceptions hold personal meetings; a clarification via telephone conference or miscellaneous means will be sought.

Call +43 1 383 60 or email office@sms.law for further queries.

Stay safe and in good health.

Yours truthfully,
sms.law team.
